# Our History

*Cherished Companions* Home Care was founded by Douglas Wilber to meet the growing need for care in our community. During his 21 years in the Health Care and Pharmaceutical Division of Procter and Gamble, Doug developed a special understanding of the needs of medical patients, particularly seniors. Having experienced the effects of aging in his own family, he decided to apply his unique knowledge and concern professionally, in order to help those in need of non-medical care at home. Doug's goal was to create a company that provides unsurpassed compassionate care at an outstanding value, thus allowing more people to enjoy independence in the comfort of home. Cherishing people, and their need for independence, is at the very heart of *Cherished Companions*.

## Peace of Mind

At *Cherished Companions*, we know that your heart is at home. Remaining independent may have become a little challenging --- that's where we come in. Our mission is to help you or your loved one enjoy independence, not fear it. Home is a place of love; we offer the kind of care that makes it possible to thrive at any age.

The *Cherished Companions* client evaluation begins with a free assessment to determine your individual needs. It's our goal to work with you to create a unique plan of care. In order to meet that goal and increase client satisfaction, we carefully select the right caregiver for you; we seek to closely match the personalities and interests of our staff and our clients, in order to provide the most harmonious, compassionate care possible.

*Cherished Companions* emphasis on quality and loving care above everything else is remarkable. It gives me such peace of mind to see how much they really care!

- Paul

*"I don't want to go into an institution, and I feel like Cherished Companions gives me the freedom of choice"*

- Jane (Age 86)

## Only the Best

We want only the best for those who choose *Cherished Companions*. Our goal is to provide the highest quality care, while offering our services at very reasonable rates. Our employment screening process is rigorous, thanks to the use of a proprietary interviewing system, which well surpasses industry standards. We believe strongly in hiring only those who believe caregiving is a calling, not a job. And, once hired, caregivers remain in our employ, allowing our clients to leave the worries of filing employment taxes and Worker's Compensation to us. Providing peace of mind is part of what *Cherished Companions* does best.

## You are in Control

Since *Cherished Companions* is a non-medical agency, you are fully in control. You choose what time you wake up or what you want for dinner. We will always do our best to accommodate your needs. You're even in charge of choosing your own caregiver; we can provide several potential "companions" for you to meet, from whom you may select your choice.

Once a comfortable routine is established, you may just find yourself accomplishing that long-awaited project, whether it's writing your memoirs, creating a scrapbook, or organizing your pictures. Or, you may choose to simply garden, or play a round of cards with a friend. The way you spend your time is your choice.

## Help When You Need It

Whether you need us for just a few hours, or 24 hours a day, seven days a week, we're ready and available to meet your needs.

## Cherished Care

Because we care deeply for those entrusted to our care, we develop a deep bond with our clients. We understand the varieties of assistance required of our staff, whether in providing companionship, or by addressing the more complex struggles of Alzheimer's Disease.

Regardless of our clients' condition, what remains constant is our commitment to provide the best care possible, with an abundance of love and compassion.

*I am so relieved to know that this service is available. I live three hours from my mom and having a professional service like this allows me to have peace knowing she will be well cared for!*

- Wendie
